

Immunization Waiver for New Non-Degree Student - Less than 6 credits

New non-degree students who are registering for less than 6 credit hours can request a one semester/term waiver of the immunization requirements. To request this waiver, please read and sign below.

This is to certify that:

- This is my first semester registering at the University at Buffalo.
- I will be taking less than 6 credit hours at the University at Buffalo for the identified semester.
- I understand that I need to comply with the Meningitis Education requirement. This can be done online through the HUB Student Center. (For additional information, please visit <http://www.buffalo.edu/studentlife/new-to-ub/before-you-arrive/immunization.html#status> .)
- I understand that if I want to register for 6 or more credits during my first semester, I must comply with the immunization requirements prior to registration.
- I understand that if I want to continue/enroll for a subsequent semester, I will need to comply with immunization requirements prior to the next registration window.

Name:

Date of Birth:

Person Number:

Semester/Term:

Signature:

Date:

Allow 2-3 business days, upon receipt, for processing. Student Health Services will not confirm processing – you will need to review the effective date of your IMM hold within the HUB Student Center to determine if the waiver has been finalized. **The IMM hold will be future dated when the waiver is approved.**
